About

Whatever you *W*ish

Since PWD, Inc. entered in the design and decorating business in 1996, it has received accolades from the industry and clients. The PWD family has over thirty years of experience in transforming client wishes for their homes and offices into reality. Distinguished by exceptional quality and a dedication to customer satisfaction has made PWD, Inc. a well-respected and reliable source for creative and innovative design.

PWD Inc. specializes in full design services for upscale communities. Our designs range from contemporary to traditional, casual to formal, and commercial to residential. Our space planning and color schematics ensure that every customer is comfortable with the direction of their project and know what to expect when their home is completed. Most importantly, we offer a three-day approval on most furniture, rugs, artwork and accessories. The response to this service has been overwhelmingly positive because it allows clients to see the items in their home and spend time considering them before committing to the final purchase.

PWD, Inc. has connections in the design industry that span the country and allow us to offer you competitive pricing on furniture, artwork and accessories, so that interior design doesn't have to mean an increase in cost on such items.

At PWD, Inc, we believe strongly in the integrity and quality of our work and encourage prospective clients to contact previous clients for reference. We ensure that each client is happy with their final result and trust that our work speaks for itself. Be sure to take a look at the "Photo Gallery" page to get an idea of the depth and breadth of our work.

Choosing the right floral for the right person or occasion can make its recipient feel really special. Flowers and floral arrangements express a wide range of feelings and sentiments in the most delicate and unassuming way through colors, fragrance and composition. At PWD Designs, creating custom floral designs is a unique service for those wishing to go above and beyond an attractive arrangement. PWD never recreates the same arrangement twice, and believes that flowers should reflect the memorable moments of life. With that in mind, they choose designs based on the personality and tastes of not only the recipient, but also the giver. For events, PWD devotes their time and creativity to designing arrangements that take into account occasion, lighting, location, and for brides, even the complexities of eye color, hair color, and skin tone, so that the effect is a highly individualistic and personal impression of you.

Lisa Rispoli, the leader of the PWD floral team, has over 20 years of experience as a floral designer and has a degree in Fine Arts from New York University. She has created designs for countless occasions including parties, weddings and even set designs. She especially enjoys creating pieces for brides, taking a special interest in florals that mirror her beauty and personality.

Floral arrangements are all designed in-house so that your message is conveyed with the utmost care. No matter the occasion, ie birthdays, anniversaries, holidays, events, you'll know that your arrangement is unique. If you're looking for a more permanent display, PWD's beautiful silk arrangements convey a more lasting expression.
