### What Are You Wishing For?

#### In-home Consultation

PWD will come to your home to discuss your needs and wishes. You can limit your experience to helpful advice or seek more comprehensive design assistance.

#### Plan of Action

Once PWD has identified your individual style and project requirements, they will present you with a plan and suggestions, incorporating as many of your existing pieces as you wish.

#### Custom Window Treatments

PWD's beginnings in interior design began with custom window treatments. Their designs are inspired and original and will give your room an added touch of sophistication.

#### Installation

When the project necessitates installation, PWD will always be present to ensure that the installation is perfect and that every detail is in place.

#### Finishing Touches

Room accessories pull design elements together and are essential for a complete look. PWD can help you select and place your room's finishing touches.

#### Building and Remodeling Assistance

If you are overwhelmed by the idea of renovating and aren't sure where to start, PWD will make the entire process run smoothly. Whether you need help choosing a contractor, or help making choices about flooring, fixtures, etc, PWD can help you create your dream home or office.

#### 3-Day Approval

In keeping with their dedication to customer satisfaction, PWD developed a 3-Day Approval for all of their full design service clients. PWD will bring into your home furniture, accessories, rugs, artwork, lamps and any other necessary items to complete the overall finished look. You will have 3 days to decide which items you would like to remain in your home. This process is exciting for the client because you can see everything in your home all together and set your own budget accordingly.
